I am a developer with a strong interest in creating innovative web applications, which has made me flexible in the roles I take on and capable of working in environments with different languages and frameworks.

### WORK EXPERIENCE

**Front-end Developer** | [20tab S.R.L](#)

**Apr 2023 - Dec 2024**

**Rome, RM**

React Next.js Styled-Components Cypress Jest Cucumber Leaflet Django HTMX PostgreSQL  
Wagtail CMS Docker Terraform Kubernetes Grafana GitLab CI/CD Web

20tab is a company that specializes in digital product management and development, with a focus on creating innovative solutions that aid businesses in reaching their goals through efficient and effective digital strategies. Throughout my work at 20tab, I achieved the following:

- Worked effectively within a cross-functional product team adopting Large-Scale Scrum (LeSS) as development framework.
- Contributed to the maintenance and development of internal tools to automate processes, reduce manual effort, and improve overall efficiency.
- Handled the creation and development of a web magazine with a specific set of tools and features available to its editorial team.
- Managed the front-end development of many applications, giving importance to aspects like the accessibility and the end-users' experience.

**Full-stack Developer** | [Critical Adventures S.R.L](#)

**Jan 2019 - Jun 2021**

**Bologna, BO** <https://spino.dev/experience>

Angular Ionic RxJS NodeJS Express Socket.IO MongoDB AWS AWS Lambda GitHub Actions  
Web Android iOS

Critical Adventures is a start-up that develops tools and services for tabletop and RPG games to make them playable on mobile platforms. Throughout my work with RoleEver, I achieved the following:

- Prevented issues related to database growth and degraded server performance by refactoring how websocket connections were used.
- A strong growth of active users together with an improved engagement with the in-app content by enhancing and maintaining the app front-end.
- A significant increase in subscriptions and in-app purchases by expanding the range of buyable items and allowing cosmetic skins on the users' shared content.
- Enhanced app ratings and reviews using end-users feedback to build and maintain their most desired features.

### EDUCATION

**Ragioneria Mercurio** | Graduated from I.T.C.S. R. Luxemburg

**2014**

### LANGUAGES

**Italian**

*Native*

**English**

*Advanced*
